## The Deeper Beauty

Sophie Vallentin, who designed the collection "The Deeper Beauty" is a Danish prize winning artist with passion for colors and her work is experimental, expressive and sometimes humorous. Sophie was inspired by the ocean and its beauty when she created the collection "The Deeper Beauty". In the collection there is a stunning version of a mermaid embracing a big pearl and a wave embracing a pearl and also corals. Sophie describes her collection as an aesthetic story from the coral reefs with beautiful organic shapes and captivating mythology of the ocean, and at the same time increase the awareness of the rain forest of the sea, the coral reefs.
